

ENGINEER WAS NEARLY HELPLESS

Well-Known Georgia Man Says New Discovery Made New Man of Him — Gains Fifteen Pounds.

Captain C. C. Blackman, 26 Hendrix Avenue, Atlanta, Georgia, engineer on the fast passenger train No. 35, New York and New Orleans Special, and one of the most popular railroad men in the state, said: "When I learned about VI-TO-NA and decided to try it, I had been suffering from sciatic rheumatism for five years. At times my legs felt like they were tied in knots and the pain in my hips was something awful. After sitting down for awhile I couldn't reach my feet to put on and take off my shoes. I could hardly crawl into the cab of my engine, and when I did get in it was an effort for me to work the throttle. I lost weight and strength continually. Nothing I would eat agreed with me and I had terrible pains in the pit of my stomach. I was so weak and crippled up until I had to hobble around on a cane, and was continually losing time from my work. When I got to the end of my run I could hardly make it home. I was so nervous and racked with pain I could hardly sleep, and I tell you, life was more of a burden than of pleasure.

"My condition seemed to be getting worse all the time, and nothing seemed to reach my case—until I began taking VI-TO-NA. A few days' use of this wonderful remedy proved to be just what my system needed. My legs became pliant, and I could stoop down and get about easily. It was the ONLY thing that ever gave me any relief, and since taking a few bottles I never suffer from rheumatism, and don't lose any more time from my work. I can now hop into my cab like a boy and handle my old engine as well as when I got my first run. My appetite is fine, I can eat anything I want and enjoy it, and I have gained fifteen pounds in weight besides. No, sir, I have no more use for my walking stick now, my pain and nervousness are gone. I sleep like a log and feel like a brand new man. VI-TO-NA is undoubtedly the finest thing of its kind on earth, and I would go out of my way any time to tell suffering humanity about it."

VI-TO-NA is on sale in Chattanooga exclusively by Jo Anderson Drug Co., in East Chattanooga by Sherman Heights Drug Co., in Alton Park, Tenn., by Alton Park Pharmacy.

REPPINGTON SEES WAR'S END IN WEST NEXT YEAR

Military Critic Says German's Fighting Machine Must Be Crushed on This Front.

(By Lieut.-Col. Repington.)
London.—(Copyright, N. Y. World.)—Since Sir William Robertson was dismissed and our general staff was deprived of its former powers, seven months have elapsed. During this period seven fresh expeditions have been initiated, an average of one a month. Released from its former leading strings, imaginative strategy has been concerned with the view in the reconstruction of the Russian state in such form as may seem best to the Russian people.

We do not acknowledge the treaty of Brest-Litovsk, nor does any true Russian. Our military aim is to lighten our military task in the west. A political objective implies the consent of the Russian people, and so to a large extent does a military objective. We cannot expect at first the adherence of the whole Russian people to our political aim, because Russia is distracted and engaged in civil war. Achievement of our political aim must, therefore, at best be very slow.

War to End in West.
After a certain number of years, if we do not make too many political mistakes, achievement of our political aim, desirable in itself on all grounds, is certain. Russia is distracted and engaged in civil war. Achievement of our political aim must, therefore, at best be very slow.

Military decision in our favor can alone break the German will and thus indirectly compel the enemy to relinquish his eastern conquest and the enslavement of the people of our eastern allies, great and small. Thanks mainly to the firm American grasp of the general strategic situation, we have every hope of smashing the German military machine in the west in 1919 or 1920. In the east we shall find arrayed against us not only Germans, but Austrians, Turks and Bulgarians. But we have on our side the troops and resources of the British empire, of populous China and of great military Japan.

We have a ready-made field for the armies at Saloniki, in Palestine and in Mesopotamia, which double the strength of the Turkish forces, and from other powers and states of the grand alliance we can draw all the needed for energetic pursuit of our eastern policy, without appreciably weakening our forces in the west.

Task Still is Arduous.
Armed forces of India, Japan and China are utilizable in Asia and are not expensively or conveniently utilized elsewhere.

Direction of these factors to a common objective, under a wise policy, is our arduous task. It is a political-military problem, but it is not a military problem. Unless diplomatic, tactical and military foresight are combined in harmonious fashion, success cannot be assured.

It follows that the political-military direction of allied forces in Russia must be well informed, comprehensive and authoritative. It will be so if an interallied council for Russian affairs be set up and be made strong on the diplomatic-military side. Since the British empire and Japan are best placed to supply the bulk of the fighting forces, the seat of the council should be London or Tokyo, but as the allied states will participate more or less in the intervention, and as London is more convenient for them as a meeting place than Tokyo, London is the obvious center for the council, and all efforts toward the common proposal.

Allied intervention in Siberia offers at present the best means for rehabilitating the Russian state, but unless the military action be prompt, resolute and far-reaching, it will not answer to the allied plans.

SICK 4 YEARS; WELL IN 3 WEEKS

After Taking BAUGHN'S PELLAGRA TREATMENT.

This Woman Wanted Death To End Her Suffering. Happy Now She's Cured.

Garnsey, Ala.—Mrs. Bama Jacobs, of this place, writes: "I was a constant sufferer from that dreadful pellagra for four long years. My case seemed beyond my doctor's reach and in July, 1918, he said he could do no more for me. I would even die myself trying to die. I suffered so much. Finally my husband ordered a trial of Baughn's Pellagra Treatment and in three weeks I could see a great change and I am well today. I say to all, take Baughn's Treatment and be cured. For my case was bad, and of long standing."

This testimonial says more than we could say, except this: We can cure pellagra and will undertake to cure any case, no matter of how long standing, on basis of refunding the money if we fail to effect a cure. If you suffer from such symptoms as red hands, skin peeling off; sore mouth, inflamed lips, throat and tongue; indigestion and nausea, diarrhoea or constipation, get today Baughn's big booklet on pellagra, sent free.
